

UniCam® Connector Standard-Performance Installation Toolkit

The CORNING logo is displayed in white, uppercase letters within a dark blue square. The square is positioned in the top right corner of the page.

The standard UniCam® connector installation tool kit (TKT-UNICAM) is a basic installation tool kit used to terminate all UniCam connector styles (SC, LC and ST compatible connectors). UniCam high-performance multimode connectors (SC, LC and ST compatible) can achieve their optical specifications with the use of this kit. A convenient carrying bag is provided with all the components necessary to terminate UniCam connectors.

The TKT-UNICAM can also be upgraded with a visual fault locator (VFL-350) that provides a visual feedback feature when terminating connectors. The installer can watch an amber glow in the back of the connector to dim or disappear indicating proper mating of the field fiber to fiber stub within the connector. This is very useful for training new installers and reducing scrap rates.

Features and Benefits

Terminates single-mode and multimode fibers

Various installation options

Convenient carrying case

Minimizes setup and teardown time

UniCam® Connector Standard-Performance Installation Toolkit

Standards

RoHS	Free of hazardous substances according to RoHS 2011/65/EU
Approvals and Listings	Passed EIA/TIA 568-B.3

Specifications

General Specifications

Product Type	Connector Tools and Toolkits
Technology	No-Epoxy/No-Polish
Compatibility	LC, SC and ST® compatible

Mechanical Specifications Fanout Kit

Height	Depth
24.13 cm	34.5 cm
